

Derwent Students Charges 19_20

Derwent Students is committed to providing you with a great, hassle-free accommodation experience. Therefore, our promise to you is that we will:

- Fix any items that are faulty and have been reported.
- Replace items that have been damaged through reasonable wear and tear during your stay.

In return we ask that you look after and maintain the property and your surroundings, letting us know of any issues as soon as you know about them.

Where items have been damaged or misused, we will need to repair or replace them and therefore we reserve the right to recharge for this. Where we incur charges for replacement items or need to appoint external contractors we may pass these costs on to you whilst referring to your inventory and considering wear and tear. Where charges have been applied after you have checked out and no pre departure inspection was held whilst you were present, we will apply charges and what we've charged if anything will be highlighted when we return any remaining deposit to you. Supporting photos and documentation will be available if there is any contention of the charges applied. Your deposit is protected under the Deposit Protection Scheme (DPS), a Government approved scheme. The scheme helps you to recover your deposit in the event deductions are made at the end of your tenancy, unless we can prove a legal entitlement to withhold a part of or all of the deposit. If you disagree with the deduction you can raise a deposit dispute as the scheme offers a free, independent resolution service. It is advisable that you request a room inspection at the end of your Tenancy Agreement. * Please note shared items and communal spaces may incur a shared charge for a replacement, repair or cleanliness. If it is not possible for the Management (acting reasonably) to ascertain who is at fault a fair and reasonable proportion of the cost if not accepted by any individual tenant will be applied.
